

NATALIA TRETIKOVA

MIDDLE FRONTEND DEVELOPER

Astana, Kazakhstan | tretiakowa2212@gmail.com | +7 705 152 4176 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building technically complex B2B products across architecture & construction, oil & gas analytics, and fintech. Developed high-load interfaces handling large volumes of data, including a global SaaS automation platform serving thousands of users worldwide. Proficient in JavaScript / React.js / TypeScript / Next.js / Vue.js. Thrive in complex product environments and consistently deliver solutions built to last.

WORK EXPERIENCE

Frontend Developer

AlexFronEnd, Astana, Kazakhstan

September 2022 – Present

- Developed a Vue.js / Quasar / Pinia web application used by 2,000+ active users, implementing features such as data tables and tree views of user data, a Notion-style rich text editor, a multi-step script compatibility validation flow, role-based access control, and advanced analytics dashboards.
- Built a content-heavy TypeScript and Next.js marketing website for an oil & gas platform using a headless CMS with page load time under 2 seconds.
- Delivered projects across several industries under tight deadlines and ambiguous requirements, quickly grasping product context, influencing technical decisions, and taking full ownership of results.
- Built complex, data-heavy components and interfaces, optimizing performance, ensuring responsiveness across devices, and maintaining cross-browser compatibility.
- Collaborated in cross-functional Agile (Scrum) teams, contributing across the full development lifecycle from planning to delivery.

EDUCATION

Specialist degree in Electrical Engineering

Obninsk institute for nuclear power engineering

2018 - 2023
